KITE SURFING Private/ One-on-One

2 hours	55€ per hour
4 hours	50€ per hour

Why privates:

- You learn faster, so therefore need less lessons.
- You learn more, as there is just you and your teacher
- It is safer, because teacher only has to watch and teach you.
- When you do become independent, you are truly free of us.
- Last it is easier to remember everyone's names
- O and because it is private, the times of the lessons are much more flexible to accommodate you and us.
- You are happier, we are happier, and all the ocean life is happier.
- And off course it stops you from having to worry about covid and groups.
